**Westfields Tennis Club
Data Protection Policy 2024**

Introduction

Westfields Tennis Club holds personal information about individuals in order to deliver its objectives and meet the needs of members. The information we gather and hold is limited to what the Club needs to function, it is not shared with third parties and is not retained for longer than necessary. Our processes are designed to protect personal information about Club members. This policy has been drafted in accordance with the General Data Protection Regulation (GDPR) which is the EU law that is effective from 25 May 2018. The GDPR applies to both digital and hard copy data. Decisions about what personal information is held and procedures for holding that information in a secure way are made by the WTC Committee.

What personal data we hold and why

All members of Westfields Tennis Club are required to provide their full name, postal address, email address and a telephone contact. This is needed for the running of the Club so we can contact members to inform them of news and developments, to check availability and to arrange matches. The details also provide the Club with a home contact should it be necessary to try to contact a relative or partner. Members' contact details are made available to committee members, to club captains and to other members needing to organise matches and contact players.

Data Security

The data for all members is held electronically by the Club Secretary and Club Treasurer. The information may be shared with other members of the WTC committee but no other electronic or printed copy is saved. In addition, the data for junior members (16 or under) is shared with the Club Coach.

Data retention

Personal details will be deleted on request and will be retained for six years after a member leaves the Club for the purpose of accounting and financial responsibility.

Electronic communication

The Club will communicate with members who have given their consent by sending occasional emails. Members may also be contacted by team captains and others arranging matches via telephone and/or text messages. Members additionally have the option to join the Club's Whats App group.

The legal basis

The lawful basis upon which Westfields Tennis Club collects and holds the data described above is that each member gives their consent.
